Stages of translation projects

- 1) The file is received from the company / institution (the customer) by one of our approved means.
- 2) Our project manager receives the file.
- 3) The approximate or final cost of the entire file is determined.
- 4) Translation work begins by our qualified translators.
- 5) Upon completion of the translation process, the translated files undergo a process of proofreading to ensure that they are free of error elements.
- 6) The translation is finally approved and delivered at the agreed time.
